Horton Hears a Who

1.) Horton Hears a Who is a book about kindness and how to care for others less fortunate than ourselves. After reading the book, one simple activity is just to talk about this idea with your child.

- What can you have your child do for those around them that is kind?
- What can they do that is unselfish?
- What activities/things are selfish versus unselfish?

2.) Find a local organization that is helping others during this time (Gardiner Food Bank, Park County Environmental Council (making masks), etc.) and include your child in helping the local community.
