## Oh, The Places You'll Go

*Lesson by Miss Lena*

### **Activity 1**

Make a "bucket list" with your child of goals they have for themselves. could be small like 'bake with mom' or 'go to the moon'!

1. Cut out or draw a large hat shape
2. Discuss what a bucket list is-- goals and dreams to accomplish your whole life!!
3. Write down a few good ones- write as you discuss with your child so you don't miss the best ones
4. Draw with child to fill up the bucket
5. Make this an ongoing activity and track what your child dreams of accomplishing!

### **Activity 2**

Talk about forms of travelling and how we get to the "places we go"

1. Draw a chart with three columns: water, air, and land.
2. Discuss different places around the world: could be real like Alaska, or the island of Tafiiti.
3. Ask your child how they would get there: for example, take an airplane to France.
4. Fill out the columns with different modes of transportation
5. Talk with your child about which forms of travel they have used, and which they might want to use in the future

## [Suitcase Art Activity](#)

### *Math Activity*

#### **Materials:**

- small objects of various colors or shapes (can be anything from pom poms, magnets, marbles, fruit or vegetables, candy or cereal pieces (added bonus: at the end of the activity, they get a little snack!))
  - bowls or cups
- 
1. Work with your child to sort the objects into categories based on size, color, or another quality.
  2. Help them if needed, and at the end count up how many are in each category (How many red pom poms?)
  3. Discuss which bowl has the most, least, equal, etc.
  4. Ask your kiddo questions as they complete this activity, and help them explore the various ways that an assortment of everyday objects can be sorted.
